Fior d'Italia Ristorante San Francisco Ca.

-Bartender- 11/12~9/16

Gianni Audieri (Chef/Owner) 415.986.1886

COVER LETTER

Re: Graphic Design intern position
To whom it concerns:

As someone who is enthused with design and the technology used to illustrate products and services, I am intrigued to find out about the opportunity at your company posted online. I would be excited to work as a graphic design intern and be part of the team.

Although I have little direct professional experience as a Graphic Designer, I have knowledge with Adobe Creative Suite programs such as Illustrator, InDesign and Photoshop. I also possess an interest and passionate willingness to learn. I am currently in the Graphic Design program through Santa Barbara City College with an estimated graduation date of 2018. I have designed logos, print materials such as brochures and flyers for various companies as part of my course work.

With over 15 years of experience helping to run small/corporate restaurants and bars, I have a solid understanding of the dedication, organization, superb management and exceptional communication required to keep a business profitable, as well as create an enjoyable work atmosphere and provide a high quality of service. Below are listed my most notable experience:

- Management – I have worked in the restaurant industry for 15 plus years assisting patrons, coworkers and managers to get the job done in a swift and efficient manner, learning to anticipate the needs of others as the job progresses. I focus on communication as well as listening, following orders and giving feedback. I have years of experience managing small and large projects requiring attention to detail, and am accustomed to and comfortable working with different types of clients from high end to fast paced environments.

- Strong work ethic – I have been willing to work after my shift to help others get the job done as needed, and have taken initiative to prepare for the upcoming projects. I also double check that my work area is cleaned up and all requests have been addressed before signing off. I am intuitive and very much enjoy helping and supporting others and I'm great at listening to people's needs and providing solutions to their requests. I am also highly skilled at thinking quickly on my feet to come up with innovative solutions.

As you can see from my resume, I have a very diverse background and I have a knack for picking up new trades. I believe my experience, attitude and skill set would be an invaluable asset to your team.

I am passionate about learning developing technologies used to streamline productivity and would enjoy the opportunity to contribute creatively. I can be reached any time to further discuss my qualifications. I have a flexible schedule and am available to work immediately. Thank you for your time and consideration.

Sincerely,

Nino Battaglia
